2 out of 4 responded. That is 50%.

If your invitees have not responded, call or send them a reminder. You can send an email reminder via the application. Simply log in here: [click here](#)

You can also invite more people once inside the application. May we remind you that the more people you invite to complete the Checkup, the better it is for you.

If you have been asked by an employer to invite raters for a Checkup and your raters have responded to the survey, you will need to wait for the employer to close the Checkup.

Regards,

The Harver Team
